

NUUK COVID Policy and Terms (as of March 01 2022)

COVID Policy

The safety and wellbeing of our guests and staff is a top priority for Nuuk.

Our requirements are for guests to:

- **Present Vaccination Card:** We are open to
 - Fully vaccinated individuals, and
 - Unvaccinated minors below 18 years of age.

All adults must present their vaccination cards along with their government issued ID at check-in. Hard or soft copy of the vax card is acceptable.
- **Temperature Check:** Upon arrival at Nuuk, we will verify your temperatures are below 37.5C.
- **Health Declaration:** Health Declarations are included as part of the Registration Card signed during Check-in. Only guests with no declared COVID-19-related symptoms will be allowed to check-in to the hotel.
- **Wear Face Masks:** Face masks are required in hotel indoor public areas and when moving around in outdoor areas, with some exceptions. Public areas include the hotel's reception, lobby, restaurant, bar and lounges. Some guests may be exempt from this mandate, including but not limited to guests with medical conditions, guests consuming food or beverages in the restaurant, guests who are seated outdoors and are socially distant, and children under the age of two (2).

We also take the following precautions:

- **General Disinfection:** Our cleaning program includes regularly sanitizing high contact surfaces using best in-class disinfection products, and taking extra time and care during deep cleaning of rooms.
- **Supplemental Disinfection of the Indoor Environment:** All frequented common areas and family rooms (RM2 | RM3 | RM4 | RM6) in the hotel have hospital-grade HEPA air filter machines that will run throughout your stay. Furthermore, all room disinfection before you check-in includes UV light disinfection for 30 mins per room. We also regularly air out the Hotel's common spaces by opening windows or doors to allow fresh air into the property.

Wishing you safe travels and we look forward to welcoming you to Nuuk Taal Lake.
